

## *"KNOW THYSELF AND THOU SHALT KNOW ALL"*

*When Spiritual form chose to separate from the Graces of The Great Beyond and The Great Law- God, a newly emerged physical-spiritual world was born. There, housed in this newly formed physical body -was its Heavenly Supreme DNA - all the great knowledge of one's former Heavenly existence. Spiritual form never knew hatred, fear, death, aging, hunger, poverty, physical suffering, and lack of love, pride or separation. In fact quite the opposite was true, it knew only that it was a part of the whole of God and that it innately knew how to access and create effortlessly and abundantly from Gods Great Pure Laws.*

*The undeniable truth about our extraordinary Supreme DNA is indisputably proven through our scientific present day studies, theories and the magical findings of both Human DNA and the Human Cellular Body. Spirituality and Science are quantifiably one - not separate the other; from the beginning of time, "Spiritual Science" has governed the Universe and all its life forms. Where would Humanity be in its' present day evolution, if all scientific phenomenon had been termed as "Spiritual Science?"*

*Humankind (you and I) must re-awaken to our innate knowledge and truth of our Earthly Human existence. For Humankind to experience the deep knowledge of our Heavenly-Supreme-Human DNA, we must first heal the belief systems that are deeply embedded in the unconscious realms of our bodies, minds, and spirits. The first steps we will have to take in this healing process will be to heal our lack of trust-in-faith and faith-in-trust. Lack of trust and faith are the result of Humankind's initial wounds of its first experiences of separation and indifference within each - our self and with our relationship with our Higher Power. When we heal these unproductive belief structures, we will bring forth in our lives, a whole Heavenly-Supreme-Human experience.*

*Humanity's challenge with this re-emerging knowledge in our present time will be: How does Humanity heal the soul wounds that closed its minds, hearts, and eyes causing Humankind to deny the truth of its Supreme Existence and Heavenly knowledge, abilities, gifts, and oneness with all? This is our Earthly task - "Know Thyself And Thou Shalt Know All"*
